The story of my first day at AIMS is fairly common. I started a new job recently, and was prepared for the first day to be a bit of a disaster. I had a lot of fear around making mistakes or seeming incompetent or stupid, and so I was pretty nervous when I started, but I came to realize through the course of the day that I needed to have a strong confidence in myself and put myself out there confidently. My supervisor, Dr. Belinda Dyer, was my anchor. She has supported me throughout my career in medicine, and was kind enough to give me a bit of reassurance on my first day. She didn't say that I was going to be great or that I would be fantastic at AIMS, she just told me that this was a place where I could grow and learn and that I would be happy to work here. That gave me such great confidence in myself and in this place, and I realized that was such an important and powerful encouragement for me. I now have a very good reason to strive and grow and be the best at AIMS that I can be. As my supervisor said, AIMS is a place where you can grow, and grow not only in your knowledge of endocrinology but also your work knowledge and skills.

Plot Midori Kururugi thinks her life is ordinary until she meets Kyosuke Tsuchimikado, who claims he is from the "anti-birthday club". To help Kyosuke, Midori decides to start her own "anti-birthday club" to lure Kyosuke into the club by giving birth on her birthday, September 21, but nobody on her real life knows what she is up to. Characters Kyosuke is the main character of the story. He was born on September 21 and upon meeting Midori he feels all of his life (in the past and future) was meaningless. He decides to tell her he is from the "anti-birthday club", which is not a real club. The anti-birthday club is when people are born on the same day and the world ends. To prove to Midori that the two of them don't need to be together, Kyosuke decides to make one of his own members actually born on his birthday (so he can kill them) and get back with Midori. Although he does not want to kill the other members of his club, he at one point does anyway, only to change his mind. Kyosuke reveals that he is a member of the "anti-birthday club" and his membership comes with a terrible burden: He will kill an innocent girl on his birthday. Nobody in their life knows what he is up to because he refuses to tell them. Midori has been living an ordinary life up until the day Kyosuke reveals he is a member of an anti-birthday club. She is a little skeptic against everything she has already been told about Kyosuke, which is why

Biography The Brothers Eckelt were born in the city of Münster on the Rhine. Some sources give their date of birth as 1 April 1845. Others give it as 1 July 1845, or even 1 April 1845 as their date of birth. The reason for this discrepancy seems to be that the birth of the brothers Eckelt was registered in the city of Münster on the 15th of April 1845, but was not in the Münster register. So it was not added to the records until on the 6th of May 1847, when the brothers Eckelt were born. 1 April 1845 seems to be their correct date of birth, as the street they grew up on was known as "Lange Eckeltstraße".

Description The Eckelt brothers were large, agile and strong. Otto could only just walk. The adults of the Ec
