Full-duplex audio communications are very common in maritime industries. IEC 60945 Ed.4.0 does not specify how to perform full-duplex audio communications over radio. However, IEC 61174 may be used as an additional means. IEC 60945 Ed.4.0 has also been adopted by the IEC, which will most likely lead to harmonization of IEC standards. Integrated Electronic Chart Display and Information System (IEDIS). IEC 61174 Ed. 4.0 has also been adopted by the ISO. For the definition of IEC 60945 Ed.4.0, see http://en.wikipedia.org/wiki/IEC_60945 . IEC 61174(Ed.3/4) is a performance test standard for IEC TC84. Modifications of the IEC 61174(Ed.1/2/3/4) standards are provided in this publication. The IEC 61174(Ed.1/2/3/4) standards provide guidance on specific performance and conformance requirements for implementing and evaluating navigation, control and other related equipment and systems. The IEC 61174(Ed.1/2/3/4) standards do not impose mandatory requirements on equipment and systems. IEC 61174(Ed.1/2/3/4) Test Methods can be viewed at www.echoinc.com/standards/IEC61174.aspx. The IEC 61174(Ed.1/2/3/4) standards are based on the International Maritime Organization (IMO) Resolution on Performance of Navigation Equipment and Systems (MSC.232 and 571). IEC 61174(Ed.3) test methods have been revised to cover measurement and assessment of performance in the suite of features of ECDIS. IEC 61174(Ed.1) standard specifies Performance requirements of Electronic Chart Display & Information Systems (ECDIS). IEC 61174(Ed.2) standard is applicable to Instrument Landing System (ILS) which includes Instrument Approach System (IAS). IEC 61174(Ed.4) standard is applicable to all electronic navigational systems including Automatic Terminal Information System (ATIS).
