All of the games in this tournament follow a similar structure to the previous games in the series - each game featuring different modes of play, including story, tag team and team. A different selection of new characters are introduced, as well, and each of the characters are given a fighting style that can be used in various different ways. Players will have the option to choose either of the 5 games the console is capable of playing in the tournament, or use the games by default, as well as having the option to select from a range of other fighting games by SNK and Capcom, while also having the chance to compete in the Mystery Battle event - making this tournament very different to the three previous tournaments. The names chosen for the tournament, including its affiliated characters, were all names of people who either died or had been tortured, and were all from a younger age than the character of the original King of Fighters.
